STATISTICAL SUMMARY

Visitors to Manitoba 1983

U.S. Border Crossings

and Overseas Direct Entries

Project #79-096
Denis Mager
Data Development
Department of Business Development
and Tourism
JUNE 1984

1. INTRODUCTION

- The purpose of this report is to present Statistics Canada data for the 1983 calendar year measuring non-resident travel entries into Manitoba from the United States and direct from overseas countries.

- The information p... ...is to the volume of tourist movements between:

  1. The United States and Manitoba and

  2. The rest of the world and Manitoba.

- Interprovincial movements of traffic either Canadian or American are not included in this report.

II. UNITED STATES VISITOR ENTRIES

- United States visitors entering Manitoba by automobile from the United States totalled 557,650 persons in 1983, this is a decline of 4.59% from 1982.

- Visitors entering the province by automobile and staying one or more nights decreased 6.74% from 1982 to 240,356 persons.

- Visitors who entered the province and departed the same day declined - 2.9% from 1982 to 317,294 persons.

- Overall there was a 4.18% decline in total U.S. automobile traffic entering Manitoba in 1983.

- United States resident entries by air increased 3.33% from 1982 to 54,884 persons.

- Travel by bus has been declining in years prior to 1982.

- In 1982 however, bus traffic recorded an increase of 19.90% over 1981 to 23,992 persons. In 1983, bus traffic recorded an increase of 1.66% over 1982 to 24,390.

- Overall, the total number of United States resident entries declined 3.64% from 1982 volumes to 639,455 persons.

III. OVERSEAS TRAVELLER ENTRIES

- Overseas visitors via air direct to Manitoba and by air and land via the United States decreased in 1983 by 24.36% to 13,358 visitors.

IV. CANADIAN TRAVELLERS RETURNING TO MANITOBA

A. From Visits to the United States:

- The number of Canadians returning from visits to the United States increased by 9.78% in 1983 to 1,104,959 visitors.

- Travel by automobile on a one or more night basis increased by 23.55% to 424,797 travellers and travel on a same day basis increased by 2.45% to 538,297 travellers.

- Travel by bus and other modes increased 7.17% and 27.70%.

B. From Visits Overseas:

- Canadians returning directly to Manitoba or returning via the United States from visits overseas increased 7.66% to 21,116 persons.

- This measure represents only a minor portion of the total overseas travel by Manitobans since most travellers re-enter Canada at other ports of entry (i.e., Montreal, Toronto, etc.).

V. CONCLUSIONS

- In 1983, United States residents entering Manitoba from the United States by all modes of transport declined by 3.64%.

- The majority of this decline is attributed to a decline of approximately 17,500 long term auto visitors.

- Travel by residents of countries other than the United States to Manitoba either direct or via the United States indicated a decline of 24.36% to 13,358 travellers.

- In general, visitors from the United States remained in decline. However, the decline for all automobile traffic tended to drop less from 1982 to 1983 on a percentage basis than in recent years. There were in fact increases in the number of U.S. residents entries by air which were in decline in 1982 and the bus travel continued to increase a slight amount. There was also an increase of 25.8% of residents entering by other modes.
